

StormShield™

Ice and Water Protector

“Invisible” protection against roof leaks.

An economical modified bitumen roll roofing product with a self-adhesive backing protected by a silicone-treated release sheet, which is easily removed during installation.

Protects Against Wind-Driven Rain

Rain, propelled by wind is blown under the shingles, allowing water to penetrate through the unprotected roof deck, causing interior damage. Roofs with lower slopes (2:12 to 5:12) are even more susceptible to this problem.

Helps Prevent Ice Dams

When melted snow runs down the roof to the colder eaves, an ice dam can form and cause water to back up under the shingles. Eventually, the water penetrates the unprotected roof deck and leaks through, damaging the building’s interior.

Use StormShield™ Ice and Water Protector on these critical roof areas.

- ✓ Helps prevent water leakage due to ice dams and wind-driven rain
- ✓ Improved flexibility for superior performance
- ✓ Slip-resistant surface for safer application
- ✓ Tear-resistant membrane
- ✓ Glass fibre reinforced for extra strength
- ✓ Self-adhesive for watertight sealing
- ✓ Self-sealing around roofing nails

Specifications¹:

Size: 19.8 m x .91 m (65' x 3')
Area: 18.1 m² (195 sq. ft.)

Standards:

CCMC 12413-R
ASTM D1970
